B Anveo Mobile App example

What are your choices?

A

Microsoft PowerApps - full flexibility in designing a user interface

PowerApps is a **non-Dynamics 365 Business Central / NAV** tool that is equipped with a web-based WYSIWYG editor. It has access to a variety of data sources such as Dynamics, SharePoint or Excel files **in the cloud**.

B

Anveo Mobile - comes with robust & ready-to-use solutions

Anveo is **fully integrated in Microsoft Dynamics 365 Business Central / NAV**. The entire setup is done by **field selection in Dynamics**. Users can access all data offline as a standard feature. The interface is optimized for **daily business use,** with templates for a quick start and the freedom to easily customize your app.

Compare App Layout and Business Process Capabilities

	Microsoft PowerApps	Anveo Mobile App
User Interface	**Flexible, pixel-precise** positioning of all fields	Simple **field selection** in Microsoft Dynamics
Setup	**Separate** configuration per device size or a complex responsive setup	**Automatic** layout for all device sizes
Business Processes	**Excel-like** configurator with limited capabilities	Dynamics AL-like language for **powerful processes**
	Layout driven	**Business driven**

ⓘ A well-designed user interface is crucial to the solution's success

App Availability: Offline Capability and Data Limits

	Microsoft PowerApps	Anveo Mobile App
Offline Capability	**Online only** or limited **data caching**, time intensive development	Full offline capabilities as **standard feature**
App Data Limit When Offline	**Max. 500-2000** records per table	**Max. 1-3 Million** records in all tables
Data Access	**Dynamics-connected** with other data connectors	**Dynamics-integrated**

Mini apps or occasional use

Business apps as a reliable daily tool

ⓘ Users revert to pen & paper if the app's response time is too long.

A perfectly tailored mobile app is key to user acceptance and the success of the solution.

Do all mobile users always have WiFi / 4G?
Do you have UX experts in your team?
Is the solution for a single device size?
Do you need powerful business processes?

Yes?   No?   It's complicated

For these and other questions, we provide individual workshops: Quick, smart, and with vast amounts of project expertise, we help you find the best solution for your specific scenario.

Anveo Mobility Services

Depending on the requirements, we offer various workshops to identify the best solution.

POWERAPPS WORKSHOP

Get to know the features of Microsoft PowerApps. Together we will analyze your requirements and draw up a project plan for your Microsoft Dynamics App.

ORIENTATION WORKSHOP

To select the right product, we present both solutions and discuss the advantages and disadvantages of the solutions in relation to your requirements.

ANVEO MOBILE APP WORKSHOP

Get to know the ready-to-use Anveo Mobile App solutions and the App Builder. Together we will analyze your requirements and plan your app project.
