Anveo and Microsoft Dynamics: Infrastructure Variants

Overview of available infrastructure variants and available combinations

Managed (SaaS) No own server Software as a Service

Un-Managed (Self-Managed) Windows Server OnPrem, hosted or in the private cloud, e. g. Microsoft Azure Virtual Machine as an *Infrastructure as a Service* with specification of ports to be opened. Ports are configurable.

Requires in Dynamics Anveo Mobile App via App Source or Extension from BC 14 with Universal Code

Requires in Dynamics the Anveo Client Suite Extension without Universal Code or FOB. Supports Dynamics 2009R2 to BC21. The Delta Service database is located in the SQL server of Dynamics.

ANVFO

APP & DELTA SERVICE
